

The Beginning of a Movement

The *Obesity Bill of Rights* was developed to drive change at every level of the healthcare delivery system so the more than 100 million adults with obesity can expect the same respect, attention and quality care as people with other chronic diseases.

In support of this goal, the following organizations have signed on as supporting the *Obesity Bill of Rights* and the core requirements for people with obesity to receive person-centered, quality care:

- [Academy of Nutrition and Dietetics](#)
- [Alliance for Aging Research](#)
